

PROVIDENCE®

Minden, NV, January 17, 2018– Innovative firearms manufacturer, Franklin Armory®, has successfully created a new prototype...

Franklin Armory® presents *PROVIDENCE*® a whole new action type that fires one round every time the trigger is pulled, but this action is **not** semiautomatic. Come by SHOT Show booth #20365 and see the safest, quietest, cleanest, non-semiautomatic ever designed.

Jay Jacobson – "Providence® was inspired by the demand for a non-semiautomatic carbine in international markets. In my opinion, what we created was the safest, quietest, and cleanest running design ever conceived."

Stop by SHOT Show booth 20365 to find out more!
